

JUNIOR

Enfardadora semiautomática de cargas paletizadas con film o malla
Semiautomatic wrapping machine for palletized loads, for use with film or net
Machine semiautomatique à banderoler charges paletisées avec film ou filet

JUNIOR

Semiautomatic stretch wrapping machine for palletized loads with film or net

FEATURES

The JUNIOR model meets all the expected performance and versatility for a semiautomatic wrapping machine (film or net)

It allows the configuration of all the necessary parameters to wrap any kind of load, independently from their height, stability or structure. The electric board is lodged inside the mast.

Once the load is on position, and the selected values set, it takes only the pushing of the green start button to have the machine performing its cycle automatically.

The only manually actions are the clamping of the film to the turntable, at the beginning of the process, and its cutting at the end.

OPERATIVE FEATURES

- ▶ Single and cross wrapping.
- ▶ Rainproof program.
- ▶ Soft start and Indexed stop.
- ▶ Variable turntable speed.
- ▶ Mecatens film brake for film tension on lad.
- ▶ Film / net holding hook on turntable.
- ▶ Real number settings of top and bottom reinforcing layers.
- ▶ Photocell load height detection.
- ▶ Harmonic suppressor line filter.
- ▶ Automatic reset button.
- ▶ Back voids for forklift prongs picking.
- ▶ Stop manual carriage for film reinforcement.

TECHNICAL FEATURES

2200	D	1650	1800	2000	2400
2500	L	2815	2965	3165	3565
3000	h	85	85	85	85

Load dimensions

- Max. height (incl. pallet): 1900/2400/2900 mm
- Pallet sizes up to : 1200 x 1200mm
- Max load weight: 2000 Kg

Technical data

- Machine weight: 405 Kg
- Electrical power: 220V single phase
- Power consumption: 1 kW
- Turntable speed: 12 rpm
- Carriage speed : 3,46
- SIEMENS S7-200 PLC control

OPTIONS

- Access Ramp.
- Pit frame for floor embedding.
- Variable film carriage speed.
- Electromagnetic film brake.
- Pneumatic top platen.
- Automatic powered top platen.
- Fixed ratio film powered pre estretch.
- Turntable roller conveyors.
- Turntable for manual pallet truck.
- Wide range of load heights.
- Wide range of load weights.
- Wide range of turntable diameters.
- Flat board wrapping kit.
- Stainless steel galvanized versions.
- Other specifications upon request.
